Human-centered design for complex systems.

D2Bridge is a family-owned product experience studio in Bothell, Washington. We help OEMs, startups, manufacturers, engineering firms and public agencies design vehicles, equipment, energy systems and interfaces that are easier to use, safer to operate and practical to manufacture.

SECTORS AVIATION & AEROSPACE · MARITIME · GROUND TRANSPORTATION & RAIL · SPACE · ENERGY · INDUSTRIAL EQUIPMENT

01 CAPABILITIES

01
Industrial design
Functional, manufacturable products with a design-for-manufacturing (DFM) specialty.

02
Vehicle design
Exteriors, interiors and supporting infrastructure for air, sea and ground.

03
Human factors & HMI
Usability research and testing that reduce cognitive load and improve safety.

04
Mockups & prototypes
Physical and digital mockups through a global rapid-prototyping network.

05
Visual communication
Renders, animation, presentations and exhibits that make complex ideas clear.

06
Digital training
VITE browser-based digital-twin training that reports to your LMS.

02 BEYOND THE PRODUCT

Studio on retainer
Reserved monthly hours with senior designers.

Fast turnaround
Quick, high-quality design for tight deadlines.

Branding & marketing
Brand, pitch and launch design.

Technical support
Design carried through implementation.

Press materials
Assets that share innovations and milestones.

Trade shows
Exhibits that tell your story, anywhere.
